DIRECTIONS: Find and circle the vocabulary words in the grid. Look for them in all directions including backwards and diagonally.

CORN MAZE

ADVENTURE

DID YOU KNOW?

- Corn belongs to the grass family, along with wheat, rice, and bamboo
- Corn kernels grow in pairs of rows. That's why an ear normally has an even number of rows. Count them next time you have corn on the cob!
- Every kernel has its own silk. Each silky strand connects to a potential kernel and must receive pollen for that kernel to develop.
